### Supervisor Information

To access Supervisor information for a specific member, select the user's name from the DCMA Member table. A pop-up screen appears with the user's Supervisor's information, as well as the information for the Alternative Supervisor, if applicable.

The screenshot shows a pop-up window titled "Supervisor Information for [Redacted]". It contains two sections: "Primary Supervisor" and "Alternate Supervisor". Each section has three columns: "Supervisor Name", "Supervisor Email", and "Supervisor Phone Number". The "Alternate Supervisor" section shows "Doe, John" in the name field. A "Close" button is located in the bottom right corner.

### Search Results – CAGE Code

Displayed sections depend on the selected Search Type. When CAGE Code is the selected type, CAGE Code Details, CAGE Code Listing Results, and Individual Awards Associated to CAGE Code sections display.

### AMT Mapping Description:

### AMT Mapping Types

Mapping Level	Mapping Name	Mapping Description
1	Exact Award / Order Number	Maps AMT personnel to a specific award/order. This allows for a large award or award with special personnel needs to have a unique support AMT. If an award is entered without an order, the AMT Search Results will display only mappings of awards without an order.
2	Partial Award Number and CAGE Code	Maps AMT personnel to an award and all of its orders for a specified CAGE Code. This allows for a delivery order vehicle to have the same support AMT regardless of order, or to set up a mapping for all the awards with the same Issue By DoDAAC (first six characters of the award), and limits returns to a single CAGE.
3	Partial Award Number and DoDAAC	Maps AMT personnel to all orders on a given award. This allows for a delivery order vehicle to have the same support AMT regardless of order number or to set up a mapping for all the awards with the same Issue By DoDAAC (first six characters of the award), and limits returns to a CMO DoDAAC.
4	ACO Code and CAGE Code	Maps AMT personnel to all awards assigned to an ACO code for one CAGE Code. This provides for the case of a large CAGE Code split between multiple support AMTs based on the ACO code assigned in MOCAS and the CAGE Code of the award.
5	CAGE Code	Maps AMT personnel to all awards for a CAGE Code. This allows for all awards for the same CAGE Code to have the same support AMT.
6	ACO Code	Maps AMT personnel to all awards assigned to an ACO code. This allows for all awards for the same ACO code to have the same support AMT.
7	DoDAAC	Maps AMT personnel to all awards assigned to a DoDAAC. This could potentially be different from the Administered By DoDAAC as specified in MOCAS (i.e. as is the case for Pay Only awards whereby MOCAS pays the award, but it is not administered by DCMA). This allows for all

	<p>awards for the same DoDAAC to have the same support AMT. At a minimum, the roles for ACO, QAR, ENG, and IS must have personnel mapped at the CMO DoDAAC level, as well as the PA, SS, SP, EVS, and AO functional roles.</p>
