

Welcome to Wide Area Workflow e-Business Suite. This demonstration contains audio narrative. Please adjust your volume accordingly.

This presentation will demonstrate how to Add a Embedded Item. This function is available to Contractors, Legacy Submitters and IUID HAM roles.

IUIDContractorAddEmbeddedItem

Tupdate IUID			
Use to record something new that happened to an existing item			
Sorrect IUID			
Use to modify or remove existing data that was entered in error			
TUpdate Non-Ull GFP	Olisis das Add WWD Red		
Use to update Non-UII GFP information that exists in the registry	Click the Add IUID link	K	
Q Queries			
Use various queries to find items in the registry			
U Help			

Click the Add IUID link.

Select the Embedded Item radio button.
