Medium * A Den identi bis reco DIQU78996543 Effective Date *	The following rules apply to Marks: • The following rules apply to Marks: • The following rules apply to Marks: • There must be at least one Mark group whose Content is "UID". • If there are multiple Mark groups whose Contents are "UID".	V
Medium · A Deni identi is reco Value · D10///806543 Effective Date · epirod	The following rules apply to Marks: • The following rules apply to Marks: • There must be at least one Mark group whose Content is "UID". • If there are multiple Mark groups whose Content is "UID". • If there are multiple Mark groups whose Content are "UID", none may have a Medium Code of "DEFINED". • If the Medium Code is "DEFINED". Note other Mark groups recorded whose Content is not "UID". • If the Mark groups recorded whose Content is not "UID".	V

The following rules apply to Marks:

- There must be at least one Mark group whose Content is "UID".
- If there are multiple Mark groups whose Contents are "UID", none may have a Medium Code of "DEFINED".
- If the Medium Code is "DEFINED", there must be one or more other Mark groups recorded whose Content is not "UID". Note that "DEFINED" is allowed only for Legacy or GFP items.

A Defined mark is an identification mark that is not actually on the item; it is an identification mark that is only assigned to the item. When a "Defined" UID mark is recorded, a physical mark is required, and an additional screen is displayed.
